

Exhibit E

Fuel Pricing

1. Natural gas purchased under this Agreement shall be billed at the gasoline gallon equivalent (GGE) Natural gas pricing shall be comprised of direct fuel costs charged by the fuel source provider (NG Index Price), plus a Compression Fee (as defined below), as follows:

- (a) NG Index Price: The amount charged per GGE to Contractor by the applicable regional fuel source provider (The NG Index Price shall be the rates established, where applicable, by the tariffs approved by the Virginia State Corporation Commission, in the following rate schedules:

Fuel Source Provider	City of Richmond, VA	Washington Gas	Virginia Natural Gas	Atmos Energy	Columbia Gas of VA	Clean Energy LNG or L/CNG++
Tariff Rate Schedule #	Not regulated by SCC; NGV	Schedule 2	Schedule 12	Schedule 692	LGS-1	TBD

Table 1

- (b) Compression Fee: This fee shall be inclusive of all costs for fuel station maintenance and operations, gas compression (electricity), facility charges and fees, capital expenses, and all other direct, indirect and fees to deliver natural gas from the Contractor's fueling infrastructure into a Public Body natural gas vehicle. The Compression Fee shall be charged on a per GGE basis in accordance with the following:

Monthly GGE Volume Under Comprehensive Agreement	Contractor Compression Fee Per GGE
Less than 10,000	\$1.10
10,001 – 60,000	\$1.00
60,001 – 100,000	\$0.925
100,001 – 200,000	\$0.85
200,000 +	\$.80

Table 2

- (c) The tiered pricing shall be based on the monthly cumulative volume purchased by Virginia Public Bodies fueling at the Contractor's natural gas stations throughout Virginia using a Clean Energy fuel purchase charge card to be provided to the Commonwealth and Public Bodies upon the completion of the Clean Energy fuel

card agreement by the applicable entity. The Compression Fee shall be charged on the monthly invoice.

- (d) Beginning January 1, 2014 and on each January 1st thereafter during the term of the agreement, including any renewals, the Compression Fee per GGE of fuel charged by CE may be increased by the lesser of either (a) 3% or (b) up to the “Unadjusted percent change” in the “Other services” item in the “Commodity and service group” in the United States Bureau of Labor Statistics Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W), the selected percentage for the increase shall be the lesser of the two. The Department and Contractor mutually agree to review the Compression Fee for an increase on the schedule as proposed in this paragraph.
- (e) Contractor shall provide the Department with a CNG monthly purchase volume report on a schedule mutually agreed to by the Department and Contractor. The monthly report shall reflect the CNG purchased by all Public Bodies for the preceding month.
- (f) Contractor shall bill individual Public Bodies on a monthly basis for purchased fuel. The Contractor will send invoices directly to purchasing Public Bodies.
- (g) Public Bodies purchasing fuel under this Agreement will use the Contractor’s Clean Energy fuel purchase charge card. The Department and Contractor will agree upon the data elements the Contractor’s Clean Energy fuel purchase charge card and fuel management system will capture and provide to the Commonwealth and in an agreed to file format. At a minimum the data elements will include purchasing agency, purchasing vehicle or card, amount of fuel purchased, cost per unit of fuel, date, time, and location of fuel dispensed.
- (h) Enclosed with each invoice from Contractor shall be a summary transaction record that includes:
 - a. Contract number
 - b. Billing period
 - c. Number of GGEs purchased from the station location
 - d. NG index Price per GGE by station location
 - e. Applicable Compression Fee

- (i) Enclosed with each invoice from Contractor shall be a detailed transaction record that includes:
 - a. Purchasing vehicle / card
 - b. Transaction date and time
 - c. Transaction location
 - d. Number of GGE purchased per transaction
 - e. Transaction cost
- (j) Public Bodies shall pay valid and accurate invoices in accordance with the payment terms and conditions found in Exhibit D.
- (k) Data collected in the Contractor's billing system for the purchase of fuel by Public Bodies using the Clean Energy fuel purchase charge card will be available to Public Bodies, as requested by Public Bodies, in electronic form from the Contractor.
